

JASON MATTHEW

JUNIOR FRONT END DEVELOPER

EXPERIENCE

2010 - 2016

Dickensons Accountants

Administrative Assistant / IT Support

Working at Dickensons Accountants saw me placed in several flexible roles. Some of these roles included developing the document scanning process when the accounting firm moved the 3000+ clients records from paper to paperless. On top of this I was also a crucial part in the IT support of the 20+ person office saving the company thousands of dollars in outsourced IT expenses.

2015 - Present

Jason M Design

CEO

Working for myself in a web design and development role has allowed me to connect with several current clients, working with them to achieve their business goals. Using technologies such as:

- WordPress, developing and customizing themes

2012 - 2014

The Church of Jesus Christ of Latter-day Saints

Served as a volunteered missionary for the church for two years in Auckland NZ. During this time, I was placed in a leadership role over 24 other missionaries.

ABOUT ME

I'm Jason Matthew,
a front-end developer
from Brisbane.

I am a dedicated hard working individual. Currently looking for a change of pace from running my own business. I look forward to working within a team environment and building upon the design and development skills that I already have.

EDUCATION

1998 - 2010

High School Education

Rivermount College

2010 - Present

Aerospace and Electrical Engineering and IT (honours)

Queensland University of Technology

SKILLS

HTML 5

CSS 3

WordPress
